

Feeding Frenzy

Where to meet

We meet at the Maria Mitchell Aquarium (28 Washington St.). The program starts at 9am and runs until 9:45am.

What to bring

Please bring your curiosity and any questions you have about marine life on Nantucket!

What to expect

Learn all about the fish and crabs that live around Nantucket as our staff takes you on an interactive feeding tour through the Aquarium. Each animal has different needs and the Aquarium staff cater to their every need. By the time you leave, you will have hundreds of new facts to share with family and friends.

If you would like to schedule a private feeding frenzy (only available Sunday morning) please ask one of the aquarium staff.

If you love ocean life, consider obtaining a copy of *A Field Guide to the Marine Life of Nantucket* from the Aquarium or Museum gift shop. It gives you the power to identify all the common creatures on Nantucket beaches and in the harbor.

We look forward to meeting you soon!

Sincerely,

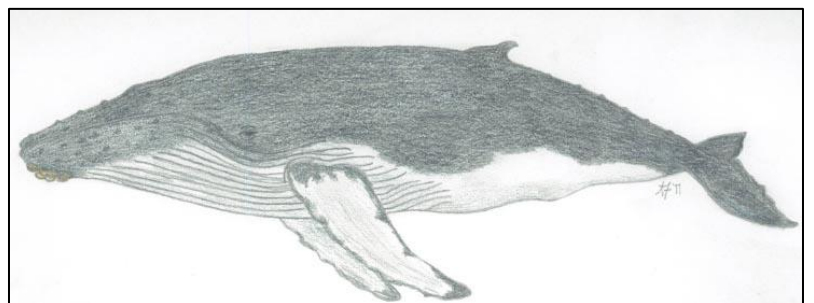

The Maria Mitchell Association

Use a QRC reader to load a google map on your phone.

As cool as it would be, there are no humpback whales at the Aquarium.
